

## MY MANIFESTO

Hi! I'll be telling you why I would be a good councillor for our class. I'm trustworthy, organised and kind to others around me! I am very creative and can come up with lots of different ideas for our school. Another one of my good qualities is that I am a good listener. I can listen to people without getting distracted easily.

Now I'll be telling you about my ideas for our class.

Here is a list of my ideas and suggestions:

- A baking/ cooking club since loads of people have suggested it over the years.
- More opportunities for instruments you want to play.
- A longer break or a longer lunch time.
- More playtime equipment such as tennis rackets, more balls and if there is enough money for a playset in the yard, or some swings.
- Extra golden time for children who get their spellings right.
- No homework on weekends.
- More fun school trips for all the children to enjoy school more.

Vote for me!
